1. Nature of operations

Founders Metals Inc. ("Founders" or the "Company") was incorporated under the Canada Business Corporations Act on April 6, 2000. The Company's common shares are listed for trading on the TSX Venture Exchange under the trading symbol "FDR", on the Frankfurt Stock Exchange under the trading symbol "9DLO", and on the OTCQX Markets under the trading symbol "FDMIF". The address of the Company's corporate office and principal place of business is 250 Southridge NW, Suite 300, Edmonton, AB, T6H 4M9. The Company's registered office is Suite 780 - 1111 West Hastings Street, Vancouver, BC V6E 2J3. The Company's principal business is to explore and develop the gold and mineral exploration Antino Gold Project located in Suriname.

Founders is a Canadian exploration company with properties in North and South America. The Company focuses on acquiring and advancing gold projects in the Guiana Shield. Its flagship asset is the 20,000 ha Antino Gold Project in Suriname. The Antino Gold Project is in the exploration stage and, based on information to date, does not yet have economically recoverable reserves. The recoverability of the amounts shown on the balance sheets for the mineral property and related deferred costs is dependent upon the existence of economically recoverable reserves, maintaining beneficial interest in the property and the underlying mining claims, obtaining the necessary regulatory approvals and permits, the ability to obtain the necessary financing to fulfill its obligations as they arise, the ability to complete the development of the claims, and achieving profitable production or the proceeds from the disposition of the property.

2. Basis of presentation

These condensed interim financial statements of the Company comply with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

These interim financial statements were authorized for issue by the Board of Directors of the Company on July 26, 2024.

These condensed interim financial statements are presented in Canadian Dollars, unless otherwise noted and have been prepared on a historical cost basis. The Canadian dollar is the functional and presentation currency of the Company.

4. Exploration and evaluation properties

Antino Gold Project

The Antino Gold Project is a resource definition stage gold exploration project located in southeastern Suriname, within the Guiana Shield Gold Belt. The project is approximately 275 km from the capital city of Paramaribo and is accessible by air to the Antino Camp airstrip or by barge along the Maroni/Lawa River bordering French Guiana. The 238 square kilometer property holds Rights to the Exploitation of Gold (Suriname mining titles), and all necessary permits for exploration, drilling, and mining have been obtained.

On March 21, 2023, the Company completed the acquisition (the "Acquisition") from Orea Mining Corp. ("Orea") of the option (the "Option") to acquire up to 75% of the Antino Gold Project (the "Project") in Suriname from Nana Resources N.V. Pursuant to an assignment agreement (the "Assignment Agreement") signed on March 17, 2023, Orea assigned to the Company all of its option, rights, and obligations pursuant to an existing option agreement (the "Option") with Nana Resources N.V. ("Nana") dated March 16, 2022 to acquire up to 75% of the shares in the capital of Lawa Gold N.V. ("Lawa") which is the registered owner of 100% of the Project (the "Assignment"). To acquire the Option, the Company paid Orea \$500,000 cash and issued 1,000,000 common shares of the Company.

The Option to acquire up to 75% ownership of the Project and become operator of the Project under the Assignment Agreement and Option Agreement is completed in three stages:

- a) Option to acquire an initial 51% interest in the Project within three years of the Commencement Date by:
 - making cash payments totaling USD 1,650,000;
 - issuing common shares of the Company having a value of \$323,000;
 - incurring a minimum of USD 6,000,000 in exploration expenses; and
 - completing a geological technical report prepared in accordance with National Instrument 43-101, containing a minimum of 500,000 oz Au in any category.

As at the date of these condensed interim financial statements, the Company has made cash payments in the amount of USD 100,000, issued 1,475,000 common shares at a price of \$0.20 and incurred exploration expenditures of approximately USD 8,760,000 on the Antino Gold Project.

- b) Option to acquire an additional 19% interest in the Project, for a total of 70%, within two years of completion of the First Option Stage by:
 - making cash payments totaling USD 1,500,000;
 - issuing common shares of the Company having a value of \$19,000;
 - incurring a minimum of USD 10,000,000 in exploration expenses; and
 - completing a preliminary economic assessment technical report prepared in accordance with National Instrument 43-101.

In the event that the Company does not proceed with the completion of the Second Option Stage, the Company will transfer its interest in the Project back to the optionor.

- c) Option to acquire an additional 5% in the Project, for a total of 75%, within three years of completion of the Second Option Stage by:
 - incurring a minimum of USD 10,000,000 in exploration expenses; and
 - completing a bankable feasibility study prepared in accordance with National Instrument 43-101.

Antino Gold Project (continued)

Upon successful earn-in of the Project, the Company and the optionor, Nana, will form a joint venture with the objective of accelerating the project into commercial production.

Elmtree Gold Project

On February 26, 2021, the Company acquired the Elmtree Gold Project, a mineral exploration property comprised of two mineral exploration properties respectively comprised of 24 and 25 contiguous mineral claims totaling 1,063,326 hectares in northeast New Brunswick. To acquire the property, the Company paid \$350,000 cash to the vendor and issued 14,000,000 common shares of the Company with an estimated fair value of \$0.45 per share for a total consideration of \$6,650,000. The vendor retains a 2% net smelter royalty. The Company also paid an arm's length third party a finders' fee of 200,000 common shares of the Company with an estimated fair value of \$0.45 per share. Transaction costs of \$27,103 are included in acquisition cost. On completion of this transaction, the four vendors of the property became the directors of the Company.

6. Financial instruments and risk management

Fair value of financial instruments

IFRS requires disclosures about the inputs to fair value measurements for financial assets and liabilities recorded at fair value, including their classification within a hierarchy that prioritizes the inputs to fair value measurement.

The three levels of hierarchy are:

- Level 1 Quoted prices in active markets for identical assets or liabilities;
- Level 2 Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 Inputs for the asset or liability that are not based on observable market data.

The Company's cash and cash equivalents are classified as Level 1, whereas accounts receivable and prepayments, and accounts payable and accrued liabilities are classified as Level 2. As at May 31, 2024, the Company believes that the carrying values of cash, accounts payable and accrued liabilities approximate their fair values because of their nature and relatively short maturity dates or durations.

Financial instruments risk

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board of Directors approves and monitors the risk management processes, inclusive of documented investment policies, counter party limits, and controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

Credit risk

Credit risk is defined as the risk of loss associated with counterparty's inability to fulfill its payment obligations. The maximum exposure to credit risk is the carrying amount of the Company's financial assets.

Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle its obligations as they come due. The Company has a planning and budgeting process in place to help determine the funds required to support the Company's normal operating requirements on an ongoing basis. The Company ensures that there are sufficient funds available to meet its short-term business requirements by taking into account the anticipated cash expenditures for its exploration and other operating activities, and its holding of cash and cash equivalents. The Company will pursue further equity or debt financing as required to meet its commitments. There is no assurance that such financing will be available or that it will be available on favourable terms.

As at May 31, 2024, the Company's financial liabilities consist of its accounts payable and accrued liabilities, which are all current obligations.

6. Financial instruments and risk management (continued)

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. As many of the transactions associated with the Antino Gold Project are conducted in US dollars, the Company is thus exposed to foreign currency exchange risk on these transactions.

As at May 31, 2024, the Company held payables and accruals of \$866,601 denominated in US dollars. A 10% change in the US dollar exchange rate would result in a \$118,355 impact on foreign exchange gains or losses.

Classification of financial instruments

Financial assets included in the statement of financial position are as follows:

		May 31, 2024	August 31 2023
Financial assets at amortized cost			
Cash	\$	10,401,463	\$ 2,028,169
Goods and services tax receivable		62,794	85,606
	\$	10,464,257	\$ 2,113,775
Financial liabilities included in the statement of financial position are as follows:	-	May 31, 2024	August 31 2023
Financial liabilities at amortized cost			
Accounts payable and accrued liabilities	\$	2,465,617	\$ 889,770
	\$	2,465,617	\$ 889,770

The Company monitors its equity as capital.

The Company's objectives in managing its capital are to maintain a sufficient capital base to support its operations and to meet its short-term obligations and at the same time preserve inventor's confidence and retain the ability to seek out and acquire new projects of merit. The Company is not exposed to any externally imposed capital requirements.
